

For more than 25 years, The Novaflex Group has sought ways to improve product quality by providing innovative solutions. Novaflex is an industry leader whose quality products are sold in industries across North America and around the world.

Agricultural

Manure, Septic, Grain, Dairy, Irrigation
Dredging, Food & Beverage

Automotive

Fuel Line, Garage Exhaust

Concrete

Cement Pumping, Plaster

Chemical

In-Plant Transfer, Pharmaceutical, FEP, UHMW,
XLPE, Viton, EPDM Hypalon, Composite Hoses

Chimney

Chimney Liners, Gas Fireplace Liners & Accessories

Construction

Jackhammer Hoses, Compressor Hose, Water Hose,
Sandblast Hose, General Service

Gas

Oxygen Hose, Todo Dry-Break Couplings

HVAC

Triple Lock, Fabriflex, Spiral Duct, Insulated Ducting,
Aluminium & Stainless Interlock Ducting, Accessories

Hydraulic

Hose, Couplings

Marine

Water Systems, Conduit/Ventilation Systems,
Exhaust Systems, 350°F & 500°F Silicone Systems
Fuel Systems, Sanitation Systems

Material Handling

Rubber Vacuum Hoses, Flexible Urethane Ducting

Mining

Air Hoses, Slurry Hoses, Rock Dust Vacuum Hoses,
Water Hose, Petrochemical Hose

Offshore Platforms

Oil Hose, Mud Hose, Potable Water Hose,
Expansion Joints, Dry-Break Couplings, Bumpers

Oil Fields

Heavy Wall Utility Hose, Mud Hose, Oil Hose,
Petrochemical, Vapor Recovery, Petroleum Hose,
Chemical Hose

Paper Mill

Expansion Joints, Water Jetting, Chemical,
White Water Hose

Rail

Air-Brake, Sweeper Hose, Material Transfer,
Rail Car Cleaning, Dry-Break Couplings

Robotics

Cable Covers, Bumpers

Blasting

Sand-blast Hose, Sand Suction Return,
Water-blast, Couplings

Septic

Septic Green, Septic Yellow, Septic Black

Specialty Venting Systems

Furnaces, Boilers, Water Heaters, Oil Heaters,
Fire Places, Unit Heaters, Pool Heaters

Steel Mill

Furnace Door Coolant Hose, Oxygen Lancing,

Bulk Tankers (Haulers)

Chemical, Cement, Hot Air Blower, Food,
Plastic Pellets

Vacuum Truck

Rubber Vacuum Hose, Boom Hose,
Sweeper Suction Connectors,
Thermoplastic Vacuum Hoses

Vent Cleaning

Thermoplastic Ducting, Fume Control Duct

Ventilation Equipment

General Service, High Temperature, Fume Venting

NOVAFLEX • FLEXMASTER • Z-FLEX • UNICHEM

PROVIDING HOSE, DUCT & VENTING SOLUTIONS

NovaFlex Industrial Duct

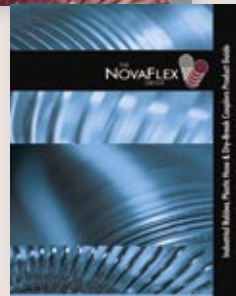

Industrial Ducting

NovaFlex offers the broadest range available of flexible ducting products, manufactured without curing, with more resistant to temperature and environmental extremes. Products offer both external mechanical lock and encapsulated wire styles and are designed to meet some of the most demanding applications; ultra-high temperature fume control up to 1800°F, chemical fume control, diesel exhaust and abrasive material handling.

NovaFlex manufactures a complete line of extruded thermoplastic duct and hose products for use in material handling, clean room environments, fume control, welding, exhaust, agriculture, cable conduit and custom OEM applications. Using advanced plastics technology, this product line offers superior flexibility; high temperature, chemical resistance and abrasion resistance.

Brands: NovaFlex, Novaflex Hose, NovaFlex Plastics, U-Lok

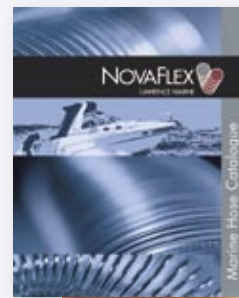

Rubber Hose and Connections

NovaFlex manufactures a complete line of rubber and rubber compound hoses for; air, chemical, food & beverage, marine, material handling, mining, petroleum, petroleum tank transfer, steam and water. Expansion joints and connectors are available with custom end configurations, from built-in lined flanges to beaded ends. All products are available in a complete range of tube compounds and gauges for added resistance to abrasion, heat and corrosive conditions.

Brands: NovaFlex Hose, Slurry-King

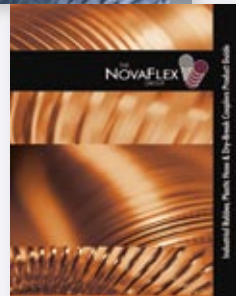

NovaFlex Industrial, Marine and Rail Hose

Marine Hose and Connections

NovaFlex manufactures a comprehensive range of marine hose products, all constructed to marine service specifications in accordance with U.S. Coast Guard and I.M.O. regulations. Products are available for ship-to-shore transfer, ship-to-ship transfer, wellhead material supply, rig gas exchange, ship manifold exchange and marine refueling. Hoses include: conduit, exhaust and fuel systems hoses, hardwall and softwall hoses, and ventilation and water systems hose products.

Brands: NovaFlex Hose, NovaFlex Marine Hose

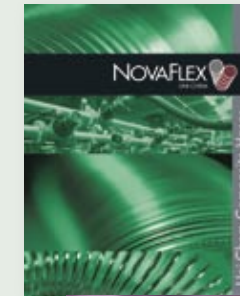

Railway Hose and Assemblies

NovaFlex Hose is a leading manufacturer of railway airbrake hose assemblies and accessories. From extreme temperature airbrake hose and gaskets to in-line anti-rotational pins for glad hands, NovaFlex has consistently led the industry in new product development. Polar Railflex is the industry's first airbrake hose designed specifically for superior performance in extreme cold, hot or variable climates. Polar railflex surpasses tension, friction and temperature tests under AAR's specification M-601-88 and M-601-99 and M-601-06. NovaFlex offers an all crimped locomotive airbrake assembly for superior performance and durability. NovaFlex's manufacturing facilities and quality control program complies with AAR standard M1003.

Brands: NovaFlex Rail, Polar Railflex, U-Flo

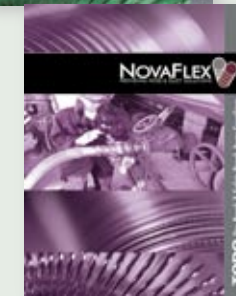

NovaFlex Composite & Dry Break Couplings

Composite Petrochemical Hose

NovaFlex's flexible and lightweight liquid transfer and bottom loading composite hose offers optimum chemical resistance to aggressive media. The products are available in a complete range of advanced films and fabrics to meet all hose requirements. Uni-chem composite hoses are available with externally crimped dry seal fittings from 1" to 8" diameter.

Brands: Uni-chem, Composite

Dry Break Couplings

Todo-Matic Dry Break couplings offer industry leading valve technology for the safe transfer of hazardous chemicals.

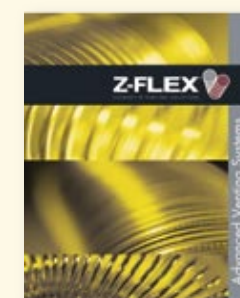

Todo-Matic couplings are operator friendly and can be engaged with a simple rotation without external locks, levers, buttons or cam ears. Coupling design allows for on-site replacement of seals. They are equipped with an integral swivel to prevent hose fatigue and facilitate coupling orientation.

Products are available in aluminum, brass, stainless steel and hasteloy, in diameters from 3/4" to 6".

Brands: Todo-Matic, Dry Break and Safety Break Away Couplings

Z-Flex Venting & Flexmaster Canada HVAC Products

Z-Flex Venting Products

Z-Flex is the leading manufacturer of specialty venting systems for furnaces, boilers, water heaters, oil heater, fireplaces and more.

Z-Flex has been providing flexible answers to gas, oil, pellet and wood venting applications for over 25 years. Z-Flex pioneered flexible chimney liner solutions and special gas vent (AL29-4C®). A variety of innovations in materials and construction produce products that deliver superior performance and increased efficiency; easier handling and faster, simpler installation and greater reliability, safety and increased service life. Z-Flex provides responsive customer service and expert technical support.

Brands: Z-Flex, Z-Vent, Z-Vent Commercial, Insulvent

Flexmaster Canada HVAC Products

A leading Canadian manufacturer of ducting and venting products who have been serving the ICI construction industry for over 30 years.

The product line of Flexmaster Canada includes: flexible aluminum ducting, flexible fabric ducting, encapsulated flexible ducting, flexible stainless steel ducting, spiral duct, duct sealant, clamps and accessories, spin-in collars, etc.

Brands: Triple Lock, Fabriflex
