

Z-Flex Stainless Steel Chimney Liner Kits for Wood Stoves

Solid fuel chimney liner kits come complete with everything needed to quickly and easily install a professional venting system.

Z-Flex® is engineered to quickly conduct heat, assisting in a natural draft system. It is manufactured from special high temperature and acid resistant stainless steel exclusive to Z-Flex®.

Z-Flex®'s specially designed "deep corrugations" provide for greater flexibility and ease of installation. The result is a clearly superior product offering incredible longevity.

Z-Flex®'s Solid Fuel Chimney Liners are manufactured from special high temperature, proprietary 316Ti "plus" grade, acid-resistant, stainless steel and titanium exclusive to Z-Flex® with innovative corrugations engineered for maximum flexibility. UL tested to 2100°F to ensure indefinite service life and maximum safety under extreme heat conditions, making Z-Flex® the industry's safest and easiest to install lining system. Pellet, Oil & Gas Kits include: stainless steel liner, chimney flashing, rain cap, mortar collar and top support. Available in 3" to 24" diameters and lengths to 50 ft.
