The Flexible Venting Solutions Specialist

Z-FLEX®, a part of the Novaflex Group of companies, is the leading manufacturer of specialty venting systems for furnaces, boilers, water heaters, oil heaters, fireplaces, and more.

Z-FLEX® has been providing flexible answers to gas oil, pellet and wood venting applications since 1979. We have pioneered flexible chimney liner solutions and special gas vent (AL 29-4C®). Constant innovations in materials and construction create products that deliver:

- Superior performance and increased efficiency
- Easier handling and faster, simpler installation
- Greater reliability, safety and increased service life

The Novaflex Group® is a privately held company committed to continuous advancement in venting solutions.

Novaflex Group® has one of the broadest product ranges available in the marketplace for the HVAC, industrial venting and hose industries.

Throughout a more than thirty-five year history, Novaflex® has earned a solid reputation for providing innovative and high quality products.

Z-FLEX®

Triple Lock™ Chimney Liners

Z-Max All Fuel Insert Kit

Kit includes: Stainless Steel Liner,
ZMax Cap and Flashing Insert Adaptor

Patented Airtight Triple-Lock™ Construction

Ideal for use with gas, oil, pellets and wood. (For use with coal, see warranty).

The patented *Triple Lock*® construction is tested and listed by U.L. Triple Lock® is accepted by industry as the strongest joint system available.

Z-Flex® is easily installed in minimal time.

The special high temperature and acid resistant stainless steel is exclusive to **Z-Flex**®.

• **Lightweight** • **Easily Handled** • **Easily Flexed**

Sizes available: Diameters 2" to 24" in 5 ft increments up to 50 ft. Pricing available on request for special sizes.

When to Z-Flex® a Chimney

- When a masonry chimney has no liner at all.
- When damage to existing chimney lining is evident.
- When additional or replacement equipment is installed or an appliance is converted to gas from another fuel.
- When a new appliance is connected to an existing chimney.
- When the existing chimney is oversized relative to the heating equipment.

All Fuel Smoothcore™ Kit

Kit includes: Stainless
Steel Liner, ZMax Cap
and Flashing

- Smoothcore™ eliminates turbulence, improving draft conditions.
- Resists corrosive attack by not impeding the flow of condensate down the liner; less opportunity for soot to accumulate.
- Patented Triple Lock® design won't pull apart during installation, or under extreme heat conditions.
- Proprietary 316Ti Plus Titanium stainless steel ensures indefinite service life and safety in containing creosote fires.
- cULs tested and listed by UL to UL1777 and ULC S635.

All Fuel Applications Oval Liner System

Flexible Stainless Steel Full Oval Liner

Used to maximize venting capacity in rectangular flues

Why choose Z-Flex?

Advanced products for maximum performance!

- Patented Triple-Lock™ design for strength
- Right sized packaging to lower shipping costs
- Best available materials/alloys
- 35+ years of manufacturing experience
- Custom components available
- Listed by Underwriters Laboratories
